Updated information will be sent by the International Mobility Team in the Welcome Mail, in the beginning of June.

Note 1: At Nova we have a limited number of places in each course. We are not able to guarantee

that all students are placed according to their first preferences: in this way, **one is advised to have alternative choices approved by the home university**. We have a period of changes where students may change their options, pending availability of places. Enrolment is done online in a platform to which the student will have access with a username and password sent in the welcome e-mail. Students are advised to choose courses from one year of studies only, in order to have a suitable schedule.

Note 2: Home Universities/Schools **cannot** ask for one specific courses to be taken at Nova SBE, because **we do not guarantee enrolment** in specific courses. Students who come in their last semester of studies and have to take specific courses must be made aware of this rule and consider their options prior to applying to Nova SBE.

Note 3: Students must bring all documents dully filled in for signature

Workload and Assessment

WORKLOAD

Courses at Bachelor level are full-time and are offered from Monday to Friday during working hours. International Mobility students make their choice from a list of available courses for International Mobility students. A typical Nova SBE student takes four / five courses per semester, corresponding to about 30 ECTS credit units.

Bachelor courses are structured in semesters and each course counts for 7,5 ECTS or 4 ECTS. This implies three weekly classes of 1H30 per course, during 12 weeks. In this workload there are both theoretical and practical classes. Most courses have one practical class and two theoretical per week.

The **limit of ECTS** one **International Mobility student** is allowed to enrol at is **32**.

ASSESSMENT METHODS

Students' course evaluation is conducted on an individual basis, and final grades are on a scale of **0 – 20**. Academic courses approval requires that the final grade is equal to or more than 10.

Each course's evaluation can be based on the student's participation in class, coursework, classwork, tests, examinations and other evaluation, according to rules defined by the Course Instructor at the beginning of the academic period, in the course syllabus and moodle. Professors may choose to offer also mid-term exams and these may be booked for Saturdays morning – please check your mid-term schedule after classes start in Moodle. Students are advised to not make travel commitments prior to checking their mid-term schedule.

The weight of all individual in-class written work cannot be less than 50%. The weight of the exam's grade cannot be less than 30% and not more than 70%.

Check the Syllabi [here](#).

For each course, **the examination is offered twice**. The first examination period extends over three weeks while the second lasts one week only. Be aware that **no more than two examinations** can be taken in the second exam period (**resit**) and you can only take them if you failed the first exam or you missed it. Note that the evaluation method in the second assessment may be different. Students must enrol online.

Improving a Grade

If necessary, students are allowed to improve a grade. This is limited to **one** grade improvement exam per semester. There is no possibility to enrol in a course for a second time, once a student obtains the credits of a course, by obtaining a grade of at least 10. The student must keep the grade obtained in the course, which will be recorded on the Transcript of Records unless there is a grade review by the faculty. Students **must enrol for the exam at the Bursary Office 72 hours prior to the exam** date, and pay the enrolment fee. **Exams will not be rearranged.**

GRADING SCALE

We use a 0-20 scale to grade students, following the Portuguese convention. The top grade, 20 points, distinguishes an outstanding performance and is very rarely awarded. The bottom grade, 0 points, is awarded only to absolutely disastrous performances. Note also that the fail range is from 0 to 9; hence, 10 points is the threshold to pass. You can compare our scale with the ECTS grading scale in this table:

ECTS scale	% of successful students normally achieving the grade	Definition
A	10	EXCELLENT — outstanding performance with only minor errors
B	25	VERY GOOD — above the average standard but with some errors
C	30	GOOD — generally sound work with a number of notable errors
D	25	SATISFACTORY — fair but with significant shortcomings
E	10	SUFICIENT — performance meets the minimum criteria
F	—	FAIL — some more work or considerable work required before the credit can be awarded

Portuguese Language Course

Life at Nova

ACCOMMODATION

There is an active market in Lisbon for rental housing where most foreign students can find a nice place to stay.

Nova SBE signed partnerships with companies that help foreign students find a suitable accommodation in Lisbon or Carcavelos. Check our website for more information - [Life at Nova](#).

- Meals: 150€ - 200€/month
- Books/Supplies: 50€/month

HEALTH INSURANCE

In order to have access to public health care, E.U. citizens, who are not residents in Portugal, must bring their European Health Insurance Cards issued by their home countries.

Other students are strongly recommended to have a health insurance coverage for the whole period in Lisbon, which is also mandatory for a Visa Request.

VISA REQUEST

In order to obtain the correct Visa you need to possess the following documents and information. Please note that all students coming from countries outside the EU, EEA and Switzerland are required to ask for a **Long-stay Permit Visa for Study Purposes**, as they are staying **longer than 90 days in Portugal**. What to ask for

If possible at the Embassy or Consulate (it depends on Nationalities), ask for a Long Stay Permit for Study Purposes to the Schengen Area with Multiple Entries, that covers the length of your entire stay.
